Strategies on
“How to Study
Effectively”**

**Help
Students
Overcome
Examination
Phobia**

**Able
to Recall
and Revise
Quickly**

**Memorize
Periodic
Table**

Why Memory Training?

If sometimes we feel that we have very bad memory or our memory power is decreasing, then remember **There's NO Such Thing As A Good or Bad Memory...Just A Trained or Untrained Memory.**

Memory can be of two types:

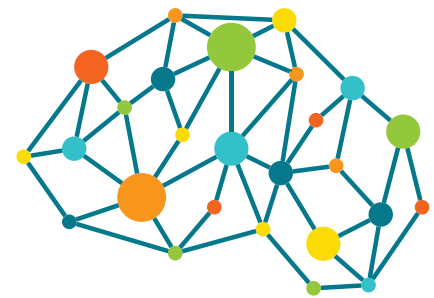

- **NATURAL OR UNTRAINED MEMORY**
- **TRAINED MEMORY**

With good physical and mental health, we are able to make optimum use of our natural memory. By training our memory we can learn to remember much more information for any length of time in a very systematic way. For a person to excel in his/her field, it is important that one should have a trained memory.

Duration of The Amazing Memory Mastery Course

@ 30-60 minutes per class
